Professional Summary

Java-focused developer skilled in **Java, JDBC, Hibernate, Servlets, JSP, and Spring Core**, with hands-on experience building **Java and full-stack applications** using MySQL, REST APIs, JavaScript, and React. Seeking entry-level **Java Backend and Full Stack Development** roles.

Education

B.E. in Electronics & Telecommunication Engineering **2022 – 2026**
M.E.S. Wadia College of Engineering, Pune CGPA: 7.44

Senior Secondary (12th) **2021**
Smt. Kalawati Badhe Jr. College, Pune Percentage: 86.50%

Secondary (10th) **2019**
N.M.V. High School, Pune Percentage: 84.60%

Experience

TechOctanet Services Pvt. Ltd. **Feb 2025 – Mar 2025**
Web Development Intern

- Developed responsive web pages using **HTML, CSS, and Bootstrap**, and built a **Task Management web application** using JavaScript with CRUD functionality and dynamic DOM manipulation.
- Used **Git and GitHub** for version control and collaborative development throughout the project lifecycle.

Skills

- Programming Languages:** Java, C, Python, JavaScript, SQL
- Java & Backend:** Core Java, JDBC, Hibernate, Servlets, JSP, Object-Oriented Programming
- Spring Framework:** Spring Core
- Frontend Development:** HTML5, CSS3, Bootstrap, JavaScript, React
- Databases:** MySQL, MongoDB
- Web & API:** RESTful APIs, CRUD, JWT Authentication
- Developer Tools:** Git, GitHub, VS Code, Eclipse IDE, Postman, Streamlit, Render
- Core Concepts:** Data Structures & Algorithms, Exception Handling, Database Management Systems

Projects

Brain Tumor Detection using Explainable AI 🐍 🌐 *Python / TensorFlow / OpenCV / Scikit-learn / Streamlit*

- Developed a **CNN-based deep learning model** for multi-class brain tumor classification from MRI images, achieving approximately **91% accuracy** through image preprocessing, data augmentation, and transfer learning.
- Integrated **Grad-CAM explainability** to visualize model predictions and deployed the trained model as an interactive **Streamlit web application** for real-time MRI classification.

EZStay – Full-Stack Accommodation Booking Platform 🌐 *React / Node.js / Express.js / MySQL / Bootstrap*

- Built a **full-stack accommodation booking platform** with property listings, search and filtering, booking management, **JWT authentication**, and role-based access control.
- Developed **RESTful APIs** using Express.js, integrated MySQL for persistent data storage, implemented **CRUD operations** for administrative management, and deployed the application on Render.

Desktop ATM Banking System 🌐 *Java / Swing / JDBC / MySQL*

- Developed a **Java-based ATM banking application** using Swing, JDBC, and MySQL, implementing **PIN-based authentication** and database connectivity.
- Implemented **deposit, withdrawal, balance inquiry, fund transfer, and transaction history** using object-oriented programming and JDBC-based database operations.

Training & Certifications

- Fundamentals of Deep Learning** — NVIDIA Deep Learning Institute **Jan 2026**
- AWS Cloud Quest: Cloud Practitioner** — Amazon Web Services **Aug 2025**
- Introduction to MongoDB** — MongoDB University **Jun 2025**
- Web Development Training** — Internshala **Feb 2025**
